

THURSDAY, OCT 15

BEST OF NASHVILLE

Visit all five locations on our full day tour!

Dynamic Lifecycle Innovations

See IT asset reuse in action. This facility focuses on securely receiving, tracking, data-clearing, refurbishing, and reselling electronics from large organizations. A unique front-end look at reuse and remarketing.

East Convenience Center

Explore a local drop-off site for residents managing household waste and recyclables, including electronics and hard-to-handle materials. This tour highlights how convenience centers support safe collection, proper sorting, and community access to responsible disposal options.

Vanderbilt University

Learn how a major research university manages materials across campus. This stop showcases material management programs including hazardous materials and sustainability initiatives that support proper handling of a wide range of materials generated in a complex large footprint organizational setting.

Nissan Stadium

Go behind the scenes at a major event venue to see how materials are managed before, during, and after large-scale events. This tour highlights collection strategies, partnerships, and operational practices that support high-volume waste diversion.

Ezell Pike Convenience Center

Visit another key community collection site serving Nashville residents. This location demonstrates how materials are received, sorted, and prepared for downstream management, offering insight into day-to-day operations that support local recycling and disposal programs.
